Grading Conversions Referred to by NHYFSC

*If a local proven local grade scale is used to convert grades, that scale can be used as long as sufficient proof of that scale is attached (i.e. listed on the report card, submitted in a letter from the school district, etc.).

*If an actual 100% numerical Grade Scale is used, do not convert any of the grades. For example, if a 92 is documented, don't convert to A-, then to 93. Converting numerical grade, to a letter grade, then back to a numerical grade will be considered deliberate falsification of information and will be disqualified.
